

Y. W. C. A. DRIVE - IS HALVE OVER

With half of the week up tonight, workers of the big Y. W. C. A. fund drive in Gary were confident this morning that they would go over the top, stating that there will be a big disappointment if they do not go over the \$100,000 mark.

No totals have been announced since the dinner and meeting of the workers at the Gary Commercial Club on Monday night when the finance committee stated that the first day of the drive had netted over \$20,000. At the noon day luncheon at the Gary Commercial Club rooms today complete figures will be given out.

According to Mrs. Ralph Ross, chairman of the drive this morning, some one has started the propaganda that the Y. W. C. A. will not be open to every denominational faith in Gary and through the press she asks that it be made known that this is absolutely untrue.

"We want every woman in the city of Gary to become members of the Y. W. C. A. and enjoy its wonderful privileges no matter what denomination or faith they may be. There is to be nothing exclusive about the Y. W. C. A. as it is to be erected for the women of the city."

It is because of this propaganda that some of the workers are meeting with opposition in securing contributions and it is the hope of the committees to obliterate this untrue sentiment. Find out what the Y. W. C. A. stands for before you permit anyone to preach this propaganda.

Yesterday and this morning contributions were coming in thick and fast and by noon it is possible that half of the total will be subscribed. Many handsome donations have been given by the residents of the city and other pleasant surprises are in store for the workers before the campaign comes to a close.

Between a nod and a snore, members of the Gary city council all but managed to keep awake at the regular meeting Monday evening when City Clerk Herbert Francis finished reading an 82 page building ordinance, which came up for its first meeting.

It was thought that it would take a couple of hours to finish the lengthy document, but City Clerk Francis clipped it off in a little less than an hour. DIG UP OLD GAS PIPE LINE

Miles of gas pipe which was laid from Central Indiana to Chicago some 30 years ago is being dug up in Gary by a monster excavator and crew which has the contract to unearth all of the pipe line in Lake county.

It is said that the gas pipe is now so costly that a contracting firm purchased it from the old Indiana Natural gas line company and is now engaged in exhuming the buried treasure where ever it is not covered by improvements.

Until the excavator arrived last week Gary residents were not aware that there was a buried pipe line running through the city. In some places the pipe is only a little way below the ground and in some places it is down as far as 20 and 25 feet.

Yesterday the excavator struck the edge of the high water mark in the Little Calumet river valley at 35th street and were forced to abandon their task until the water recedes.

The old gas line also runs through Tolleston, then to East Chicago, Whittier and Chicago. It has not been used for over 20 years.
